

WorkForce Pro WF-5110DW

Epson's new WorkForce Pro printer is perfect for the business environment. The WF-5110DW benefits from low running costs, low power consumption, fast print speeds and features designed for easy business integration. Automatic double-sided printing makes any job easy and efficient.

Low running costs

The WorkForce Pro WF-5110DW has an up to 50 percent lower cost per page than competitive colour lasers¹, saving you money as you take advantage of this printer's high capacity ink cartridges of up to 4,000 pages². And there are fewer parts to replace than a laser.

Ecological

The WF-5110DW uses up to 80 percent less power than competitive colour lasers¹ thanks, in part, to its no heat technology. No ozone gases are emitted, and an improved quiet print mode and no fan noise during or after printing makes it ideal for the work environment.

Save time

This efficient business printer is faster than a laser on typical print jobs¹, with print speeds of up to 34ppm in mono and 30ppm in colour, or 20ppm ISO print speed in both³. Its high paper capacity of 580 sheets means less time is spent refilling, and a monthly duty cycle of up to 35,000 pages⁴ means you can print lots in confidence.

Built for business

PrecisionCore technology powers the output quality that Epson is known for, at the speeds required for office, commercial and industrial printing. Prints dry fast thanks to the DURABrite Ultra ink. Print securely with Email Print for Enterprise. Epson Connect⁵ lets you easily print from smartphones, tablets and more, and its Wi-Fi Direct™ capability lets you print from supported wireless devices without connecting to a router.
