TOP FEATURES

The HP LaserJet Enterprise 600 M602 Printer series is HP's ultimate high-use workgroup printer, delivering advances in productivity, manageability, and security. The printer's top features are highlighted below. For a more in-depth look at these features and their benefits, see the pages that follow.

Heavy-duty reliability and breakthrough speeds

Boost productivity with print speeds up to 52 ppm.[1, 2] Produce documents on a variety of media, including letterhead, envelopes, labels, cardstock, and transparencies.

Monitor jobs and settings, using the 4-line color control panel. A 10-key pad lets users enter a personal identification number (PIN) to retrieve documents, adding security.[2] Use the front facing, walk-up USB port to print from flash drives.

Up to two 500-sheet paper trays and automatic two-sided printing means less paper lying around and fewer trips to reload.[2] Plus, a 100-sheet multipurpose tray adds versatility. Increase capacity to up to 3,600 sheets with optional media accessories.

One-door access makes it easy to replace Original HP LaserJet all-in-one toner cartridges. The updated design delivers clean, quiet performance for distraction-free printing.

Outstanding energy and paper savings

Cut energy use as much as 45%, compared to a majority of competing laser printers.[12] Reduce energy use even more with HP Auto-On/Auto-Off Technology, which turns the printer on or off in response to changes in network activity.

Shrink your carbon footprint—track usage data in real time and apply custom energy-saving options, using the HP EcoSMART Console.[3] An embedded web server helps you control device settings to cut costs, reduce impact, and set policies on all managed printers.

Automatic two-sided printing saves up to 50% on paper and helps reduce office clutter.[2] Pre-installed Original HP LaserJet toner cartridges help you get up and running right away, with less packaging waste. Recycling is easy and free through HP Planet Partners.[4]

Secure printing with minimal intervention

With HP Access Control,[5] you can apply custom rules to printing and imaging devices, and create a more secure printing environment. Track resource use, prevent waste from unclaimed documents, and offer multiple authentication options.

Command your printing environment and slash costs, with HP Web Jetadmin. Use the HP Universal Print Driver to easily update the entire managed printing environment. And add HP EcoSMART Fleet to make and manage environmental goals.[6]

Enhance security on multiple networked devices. Protect sensitive data by requiring a PIN for retrieval. The IPv6 protocol lets you easily expand your network of IP addresses, while IPSec security provides fast authentication and encryption for sensitive data.

Define and manage security policies across your business, monitor printer compliance, and update all managed printers when policies change, using the HP Imaging and Printing Security Center.

Extensibility to meet your needs

Update, manage, and extend printer capabilities, using HP FutureSmart Firmware. Innovative extensibility simplifies the process of deploying customized HP and third-party workflow and document management solutions.

Print where business takes you. HP ePrint[7] offers solutions for printing within your secure company network[8] or printing to public locations like airports and hotels.[9]

Enhance functionality with a range of HP and key partner solutions. Use the hardware integration pocket to house and integrate new solutions.[2, 10]

Get the most out of your printer with HP accessories, supplies, and services.

500-sheet Paper Tray

Keep your workflow moving with fast output and precision paper handling. High-capacity paper trays, plus options to add more, give capacity of up to 3,600 sheets
